### Is Porn A Problem?

- In 2008, more than 560 college students responded to an online survey:
- 93% of boys and 62% of girls were exposed to pornography before 18.
- 14% of boys and 9% of girls were exposed to pornography before 13.
- 69% of boys and 23% of girls have spent at least 30 consecutive minutes viewing internet pornography on at least one occasion. 63% of boys have done so more than once, and 35% of boys have done so on more than 10 occasions.
- 83% of boys and 57% of girls have seen group sex online.
- 69% of boys and 55% of girls have seen same-sex intercourse online.
- 39% of boys and 23% of girls have seen sexual bondage online.
- 32% of boys and 18% of girls have seen bestiality online.
- 18% of boys and 10% of girls have seen rape or sexual violence online.
- 15% of boys and 9% of girls have seen child pornography.

---

---

---

---

---

---

---

---

### Is Porn A Problem?

According to the *Journal of Adolescent Health*, prolonged exposure to pornography leads to:

- An exaggerated perception of sexual activity in society.
- Diminished trust between intimate couples.
- The abandonment of the hope of sexual monogamy.

- Belief that promiscuity is the natural state.
- Belief that abstinence and sexual inactivity are unhealthy.
- Cynicism about love or the need for affection between sexual partners.
- Belief that marriage is sexually confining.
- Lack of attraction to family and child-raising.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### Why Children Are So Vulnerable

- Children are naturally curious.
- All people, including children, are biologically designed to be drawn to sexualized images.
- Pornography produces powerful chemicals that reinforce a child's innate attraction to it.

---

---

---

---

---

---

---

### A Solution?

- A warm and communicative parent-child relationship is the most important factor (in reducing porn use among children). In addition, open parent-child channels for communicating about sexual and media experiences, sex education at home or school, and parental participation with children on the Internet are constructive influences. Finally, for boys already at risk for antisocial behavior, parents should carefully monitor and severely limit access to pornography on file-sharing networks and elsewhere.”- Dr. Patricia M. Greenfield

What Can I Do to Keep My Kids Safe?

Carefully determine what technology you keep in the home

Keep devices in public areas

Have a device curfew

Filter and limit device access

Regularly monitor and discuss activity

---

---

---

---

---

---

---

---

What Can I Do to Keep My Kids Safe?

Carefully determine what technology you keep in the home

Keep devices in public areas

What devices have we got?  
 Where are they situated?  
 Is access always unsupervised?  
  
 Is there access to online devices outside the home?  
 What about at school?  
 At their friends house?  
 What do they carry with them?

---

---

---

---

---

---

---

---

What Can I Do to Keep My Kids Safe?

What time limit is appropriate for what age?

How can we limit time online?

Have a device curfew

Which devices need to be limited?

How do we enforce time limits?

---

---

---

---

---

---

---

---

Have a device curfew

American Academy of Paediatrics recommends:

- Avoid screen time for children 18 months and younger (although video chatting may provide benefits at this age)
- For 2-5 years, limit screen time to only one hour of high-quality media per day (works best if parents and children do this together)
- For children 6+, establish rules around screen time

**Help your kids stay safe online.  
Work as a TEAM**

Regularly monitor and discuss activity

Talk Explore Agree Manage

---

---

---

---

---

---

---

---

**Talking Ages**

**4-8yrs**  
Time and Place

**8-10yrs**  
Connecting to others online  
Privacy discussions and use controls

1. Time: control and limit the time kids can access devices
2. Settings: use parental controls
3. Participation: be aware of what they are doing
4. Modelling: be a good digital citizen; have good netiquette
5. Boundaries: agree the boundaries but explain why

---

---

---

---

---

---

---

---

**Talking Ages**

**11-13yrs**  
What else for pre-teens?

1. Monitoring: be open and explain why it's necessary. Agree together.
2. Digital Footprint: there is no delete button on the internet
3. Stop, speak, support: telling you what they have seen
4. Report: know where and how to report
5. Online identity: who do they want to be online?

---

---

---

---

---

---

---

---

**Talking Ages**

14+yrs  
What else for teenagers and above?

1. Keep on top of things: keep talking to them and stay alert
2. Maintain open door policy: encourage them to seek your help, know when to ask for it and know where to ask for it

**Ideas To Combat**

Learn the basics:

- Find out why good kids get pulled into porn
- See what paediatricians are saying about the impacts of pornography
- Discover why pornography exposure is being called a public health crisis

Prepare yourself!

- Plan a good time to talk.
- Learn why you should be the first one to warn your child about pornography.
- Find out how to avoid parent freak-out if you discover a child viewing porn.

Prepare Young Minds

Teach your kids

- Define the word pornography.
- Keep your kids safe from sexual abuse by teaching them correct names

For body parts.

- Teach kids the power of their thinking brain.
